## **EUROSCAFFOLD: POWERED BY KNOWLEDGE**

Euro Scaffold specialises in the design, production and distribution of high-quality aluminium climbing equipment, such as mobile scaffolds, ladders, stairs, scaffold trailers and related products for the construction and installation industry. The history of Euro Scaffold is a story of innovation, commitment to quality and continuous growth.

Euro Scaffold produces mobile scaffolds that not only meet but exceed industry standards through superior quality, safety and durability. Euro Scaffold has established itself as a leading player in the scaffolding market, both nationally and internationally. Euro Scaffold was founded in 2005 in Wormerveer, in the Netherlands. Since 2023, Euro Scaffold has been part of the Alumexx Group. Thanks to this collaboration, further growth has been achieved and we will continue to expand production and shipping.

Euro Scaffold has continuously invested in research and development to improve and adapt products to end-user demand. With an eye for innovation and a commitment to excellence, Euro Scaffold continues to push the boundaries of what is possible in the world of scaffolding technology. As a dynamic and progressive company, Euro Scaffold will continue to evolve and adapt to the ever-changing needs of the construction industry. Today, Euro Scaffold remains synonymous with quality and reliability.

**100%** **EUROSCAFFOLD**  
**POWERED BY ALUMEXX GROUP**

# OUR PRODUCTS

## EUROSCAFFOLD MANUFACTURES AND SUPPLIES PROFESSIONAL ALUMINIUM CLIMBING MATERIALS

The entire range is made in our own factory on Dutch soil. Every product is manually checked and inspected before it leaves the factory. This gives us optimum control over the premium quality we offer, from the production process to delivery.

### MOBILE SCAFFOLDS

Makes working at height safe and easy

### SCAFFOLD TRAILERS

Quickly and easily store and transport mobile scaffolds

### ROOF-EDGE PROTECTION

Working safely on pitched and flat roofs

### LADDERS AND STAIRS

Professional ladders and stairs for all jobs

### ROOM SCAFFOLDS

Quickly and comfortably getting the job done indoors

### EU COMPLIANT

All our products comply with stringent EU safety requirements

# ALUMINIUM MOBILE SCAFFOLDS

Eurosccaffold mobile scaffolds are user-friendly and robust scaffolds used to work efficiently and safely at height. Mobile scaffolds minimise the risk of falls and facilitate easier working conditions. Mobile scaffolds are used for a wide variety of construction, repair and installation jobs. All Eurosccaffold mobile scaffolds are made of high-grade, durable and lightweight aluminium. Assembling a mobile scaffold is very easy and can be done in minutes. Eurosccaffold's mobile scaffolds are certified and comply with European regulations.

- ✓ Aluminium mobile scaffolds
- ✓ Very long service life
- ✓ For intensive use
- ✓ Easy assembly and disassembly
- ✓ Complies with European safety requirements

## BASIC

Eurosccaffold 'Basic' mobile scaffolds are ideally suited for regular, semi-professional work against façades. At the top, the mobile scaffold towers are equipped with a single-sided front guardrail for erecting the mobile scaffold as per the required standards. Includes two stabilisers.

- ✓ Semi professional
- ✓ Intensive use
- ✓ With struts
- ✓ Assembled against the façade

BASIC MOBILE SCAFFOLD WITH STRUTS		
WIDTH (CM)	LENGTH (CM)	WORKING HEIGHT (M)
75, 90	190, 250, 305	4 through 10
135	190, 250, 305	4 through 12

## BASIC PLUS

Eurosccaffold Basic Plus mobile scaffolds are ideally suited for regular, semi-professional work where free-standing scaffolding is required. At the top, the mobile scaffolds are equipped with a double-sided front guardrail for erecting the mobile scaffold as per the required standards. Includes four stabilisers.

- ✓ Semi professional
- ✓ Intensive use
- ✓ Front railings
- ✓ Free-standing assembly

BASIC PLUS MOBILE SCAFFOLD WITH STRUTS		
WIDTH (CM)	LENGTH (CM)	WORKING HEIGHT (M)
75, 90	190, 250, 305	4 through 10
135	190, 250, 305	4 through 12

# ORIGINAL

Eurosccaffold 'Original' mobile scaffolds are ideally suited for intensive and professional work against façades where free-standing scaffolding is required. At the top, the mobile scaffolds are provided with single-sided or double-sided guardrails for erecting the mobile scaffold as per the required standards. Includes two or four stabilisers.

- ✓ Professional
- ✓ Intensive use
- ✓ With struts
- ✓ Assembled against the façade
- ✓ Free-standing assembly

ORIGINAL MOBILE SCAFFOLD WITH STRUTS		
WIDTH (CM)	LENGTH (CM)	WORKING HEIGHT (M)
75, 90	190, 250, 305	4 through 10
135	190, 250, 305	4 through 14

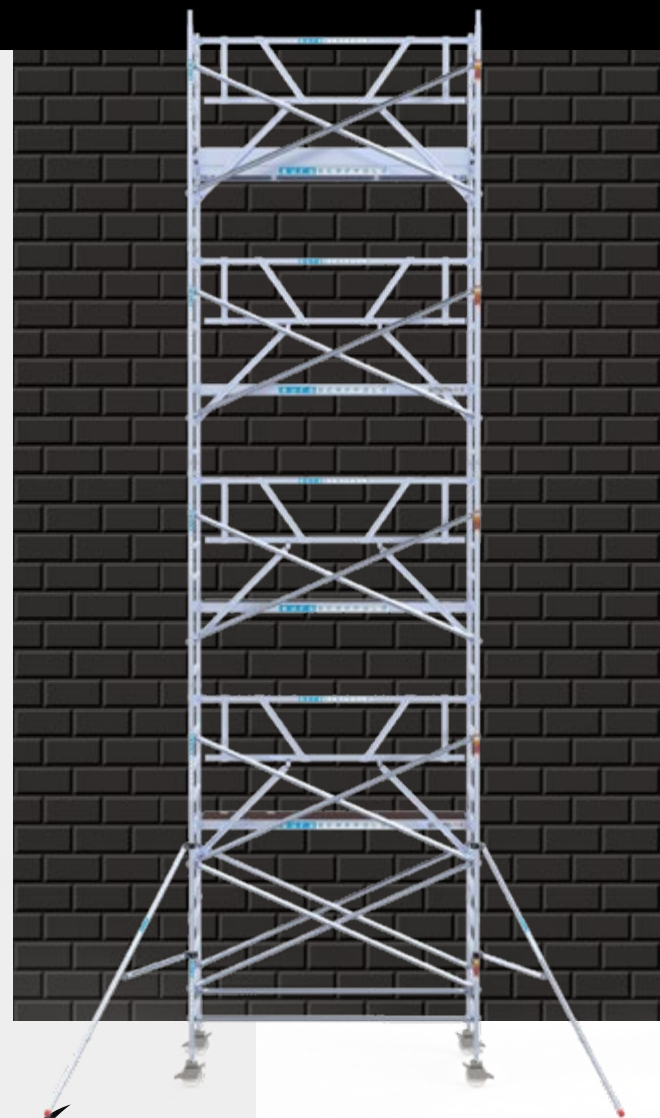

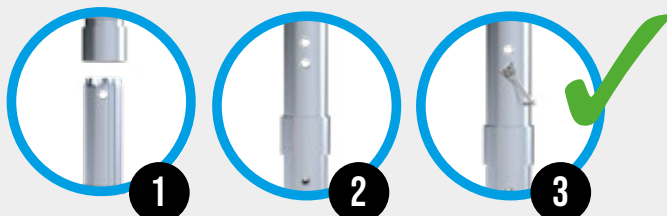

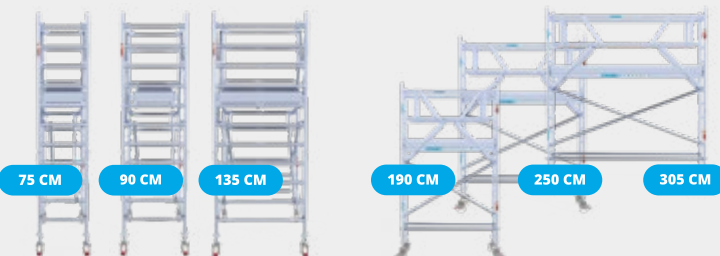

# PROFESSIONAL

Eurosccaffold 'Professional' mobile scaffolds are ideally suited for intensive and professional work against façades and where free-standing scaffolding is required. The mobile scaffolds are provided with single-sided or double-sided guardrails throughout the scaffold for erecting the mobile scaffold as per the required standards. Includes two or four stabilisers.

- ✓ Professional
- ✓ Intensive use
- ✓ Front railings
- ✓ Assembled against the façade
- ✓ Free-standing assembly

PROFESSIONAL MOBILE SCAFFOLD WITH FRONT RAILINGS		
WIDTH (CM)	LENGTH (CM)	WORKING HEIGHT (M)
75, 90	190, 250, 305	4 through 10
135	190, 250, 305	4 through 14

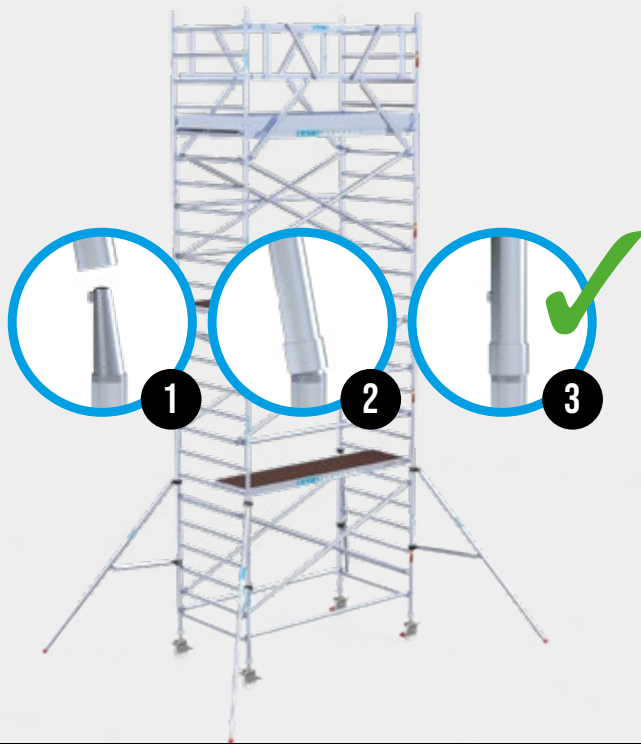

✓ **TIP** Use lightweight carbon flooring. These are about 30% lighter in weight than wooden flooring.

# EURO MOBILE SCAFFOLDS WITH FAST-ASSEMBLY PIN

The Eurosccaffold 'Euro' mobile scaffolds are ideally suited for intensive and professional work where free-standing scaffold is required. The mobile scaffolds are equipped with a euro pin for quick assembly of the frames and vario front guardrail for erecting the mobile scaffold as per the required standards. Includes four stabilisers.

- ✓ Professional
- ✓ Intensive use
- ✓ With struts
- ✓ Assembled against the façade

EURO MOBILE SCAFFOLD WITH STRUTS		
WIDTH (CM)	LENGTH (CM)	WORKING HEIGHT (M)
75, 90, 135	190, 250, 305	4 through 14

## EURO MOBILE SCAFFOLD WITH STRUTS

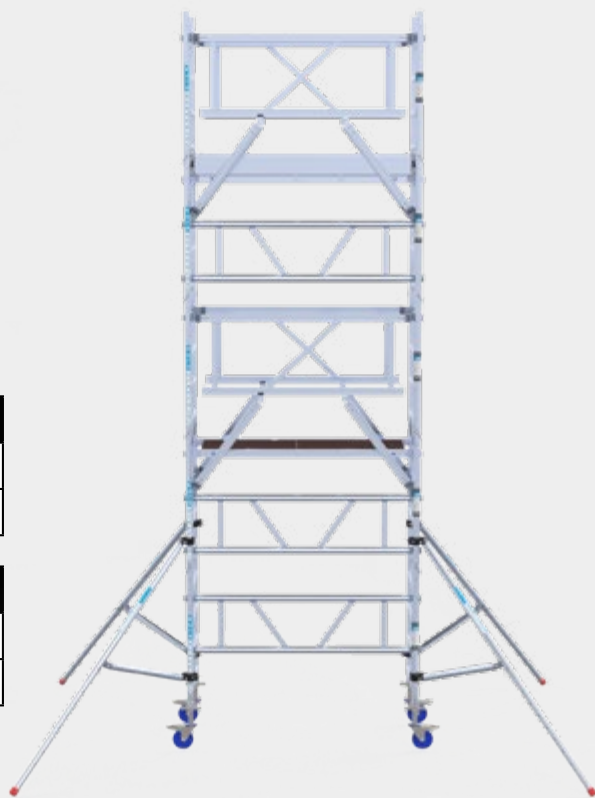

- ✓ Professional
- ✓ Intensive use
- ✓ Indoors and outdoors
- ✓ Can be assembled by one person

ONE MOBILE SCAFFOLD		
WIDTH (CM)	LENGTH (CM)	WORKING HEIGHT (M)
75	120	4, 6, 8

ONE XL MOBILE SCAFFOLD		
WIDTH (CM)	LENGTH (CM)	WORKING HEIGHT (M)
75	165	4, 6, 8

The Eurosccaffold One and OneXL mobile scaffolds are the latest innovation! Mobile scaffolds are designed for safe assembly and use by one person. The scaffolds are equipped with an integrated suspension system that allows parts to be passed safely to the next level during assembly.

The scaffolds are equipped with a convenient trolley function, so the loose parts can be placed in one section of the scaffold and the whole scaffold easily moved through a doorway. The scaffolds can also be used as stairwell scaffolding.

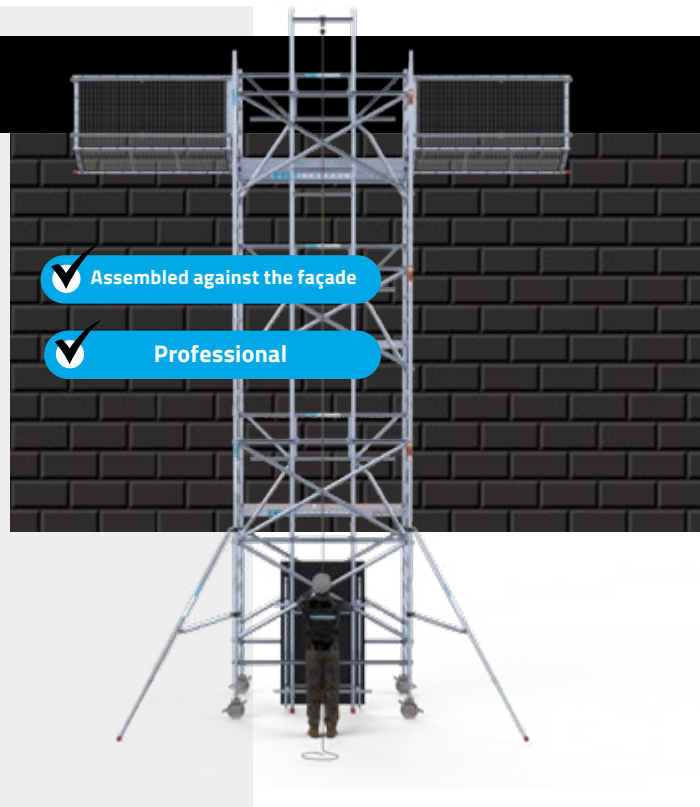

# SOLARLIFT ROLSTEIGERS

Eurosccaffold solar panel scaffolds are specifically designed to simplify the process of installing solar panels on roofs. The addition of a solar lift to the mobile scaffold, possibly combined with roof-edge protection, offers greater efficiency and safety when working at height. A mobile scaffold with solar lift is an essential tool in the construction, repair, installation and solar industries.

The combination is specifically designed for installing solar panels, but can also be used for roof maintenance and repair (e.g. hoisting up roofing). Eurosccaffold's solar panel mobile scaffolds are certified and comply with European regulations.

ORIGINAL MOBILE SCAFFOLD WITH STRUTS		
WIDTH (CM)	LENGTH (CM)	WORKING HEIGHT (M)
135	250, 305	4 through 14

# STAIR TOWERS MOBILE SCAFFOLDS

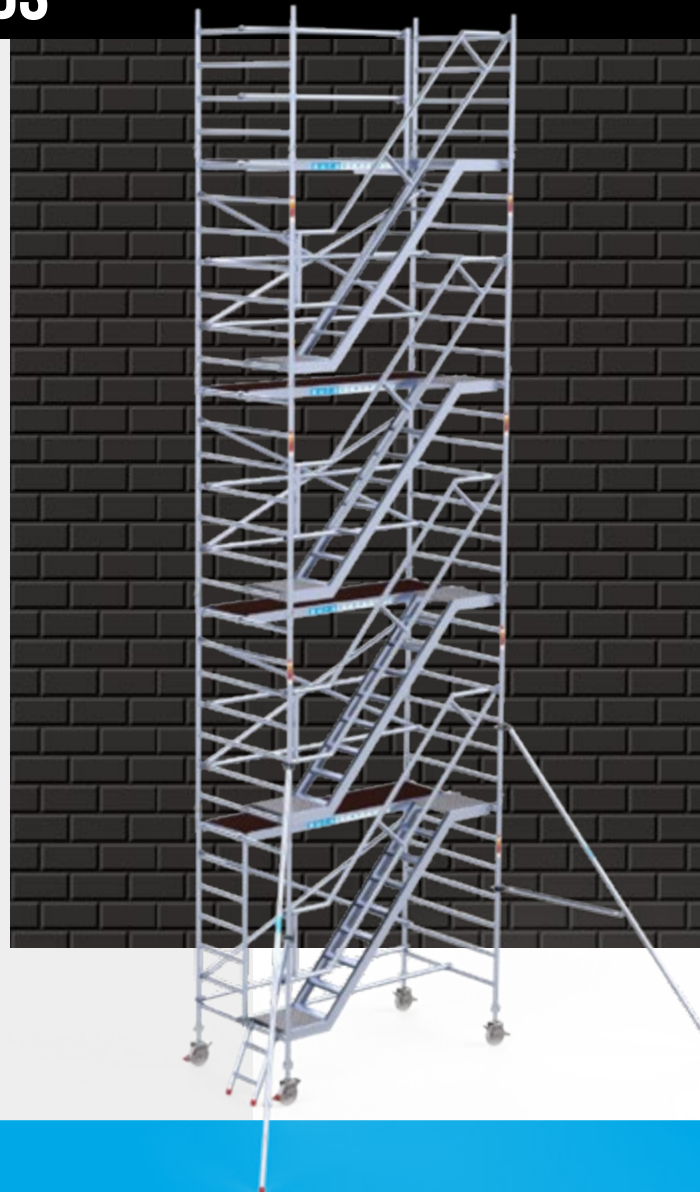

Eurosccaffold stair towers are specific mobile scaffolds with integrated stairs for easy access to higher levels within the mobile scaffold. Stair towers are extremely well-suited to taking tools or construction materials up the scaffolding.

Stair towers eliminate the need for external ladders, and there is also no need to climb up through the rungs.

Eurosccaffold's stair towers are certified and comply with European regulations.

- ✓ Professional
- ✓ Intensive use
- ✓ Front railings
- ✓ Assembled against the façade

STAIR TOWERS MOBILE SCAFFOLD		
WIDTH (CM)	LENGTH (CM)	WORKING HEIGHT (M)
135	190, 250, 305	4,6,8,10,12,14

# READY TO GO WITH A MOBILE SCAFFOLD TRAILER

Eurosccaffold scaffold trailers are specially designed for transporting mobile scaffolds. Both open and lockable scaffolding trailers are available in the range. The advantage of lockable trailers is that they can be locked using a padlock. This prevents scaffold sections from being stolen.

The Eurosccaffold scaffold trailers are offered unbraked (750 kg) and braked (1350 kg). All types of scaffolding trailers in our range are approved according to European regulations.

- ✓ Safe transportation of a mobile scaffold
- ✓ Storage of mobile scaffold sets
- ✓ Materials chest for loose parts
- ✓ Prevents damage to mobile platforms
- ✓ Theft lock as an option against theft

## OPEN TRAILERS

Open trailers are easily fitted with scaffolding materials and are available in 750 and 1350 kg variants. The 1350 kg variant offers space for carrying additional equipment.

- ✓ Professional
- ✓ Intensive use
- ✓ Mobile scaffold up to 14m
- ✓ 750 & 1350 variant

## LOCKABLE TRAILERS

Locked trailers are lockable when fitted with a lock. They are available in 750 and 1350 kg variants. The 1350 kg variant offers room for carrying additional equipment.

- ✓ Professional
- ✓ Intensive use
- ✓ Mobile scaffold up to 14m
- ✓ 750 & 1350 variant

## 750KG 250

OPEN MOBILE SCAFFOLD TRAILER SUITABLE FOR MOBILE SCAFFOLDS OF SIZES:

WIDTH (CM)	LENGTH (CM)	WORKING HEIGHT (M)
75, 90, 135	190, 250	4,6,8,10,12,14

## 750KG 305

OPEN MOBILE SCAFFOLD TRAILER SUITABLE FOR MOBILE SCAFFOLDS OF SIZES:

WIDTH (CM)	LENGTH (CM)	WORKING HEIGHT (M)
75, 90, 135	305	4,6,8,10,12,14

## 750KG 250

LOCKABLE MOBILE SCAFFOLD TRAILER SUITABLE FOR MOBILE SCAFFOLDS OF SIZES:

WIDTH (CM)	LENGTH (CM)	WORKING HEIGHT (M)
75, 90, 135	190, 250	4,6,8,10,12,14

## 750KG 305

LOCKABLE MOBILE SCAFFOLD TRAILER SUITABLE FOR MOBILE SCAFFOLDS OF SIZES:

WIDTH (CM)	LENGTH (CM)	WORKING HEIGHT (M)
75, 90, 135	305	4,6,8,10,12,14

## 1350KG 250

OPEN MOBILE SCAFFOLD TRAILER SUITABLE FOR MOBILE SCAFFOLDS OF SIZES:

WIDTH (CM)	LENGTH (CM)	WORKING HEIGHT (M)
75, 90, 135	190, 250	4,6,8,10,12,14

## 1350KG 305

OPEN MOBILE SCAFFOLD TRAILER SUITABLE FOR MOBILE SCAFFOLDS OF SIZES:

WIDTH (CM)	LENGTH (CM)	WORKING HEIGHT (M)
75, 90, 135	305	4,6,8,10,12,14

## 1350KG 250

LOCKABLE MOBILE SCAFFOLD TRAILER SUITABLE FOR MOBILE SCAFFOLDS OF SIZES:

WIDTH (CM)	LENGTH (CM)	WORKING HEIGHT (M)
75, 90, 135	190, 250	4,6,8,10,12,14

## 1350KG 305

LOCKABLE MOBILE SCAFFOLD TRAILER SUITABLE FOR MOBILE SCAFFOLDS OF SIZES:

WIDTH (CM)	LENGTH (CM)	WORKING HEIGHT (M)
75, 90, 135	305	4,6,8,10,12,14

# SAFETY GUARD SYSTEMS TEMPORARY ROOF-EDGE PROTECTION

Eurosccaffold Safety Guard Systems temporary roof-edge protection is an essential safety measure in construction and renovation work. It provides protection for workers working at height and minimises the risk of falls, which is one of the most common causes of accidents on construction sites.

The use of roof-edge protection is mandatory when working on roofs with a fall height of more than 2.5 metres. Eurosccaffold SGS roof-edge protection systems are certified and comply with European regulations.

- ✓ **Safety:** reduces risk of accidents
- ✓ **Reusable:** for various projects
- ✓ **Easy and quick to install**
- ✓ **Flexible use in various maintenance**
- ✓ **Operations Savings** compared to permanent

## SAFETY GUARD SYSTEMS EDGE FOR PITCHED ROOFS

Eurosccaffold SGS Edge roof-edge protection for pitched roofs ensures optimum safety, is easy to use and greatly increases labour productivity on the roof. Thanks to the temporary roof-edge protection, optimum roof safety is created in no time.

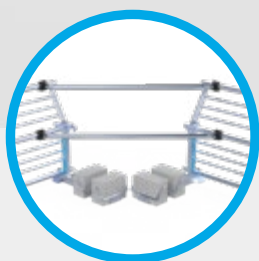

**SAFETY GUARD**  
SYSTEMS® POWERED BY  
EUROSCAFFOLD

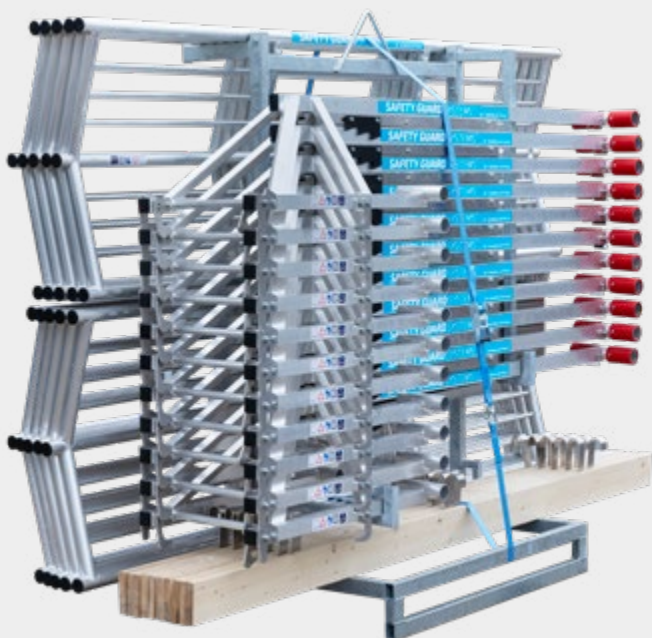

**TIP** Lift the SGS Edge roof-edge protection up to 36 m easily with a transport trolley.

# SAFETY GUARD SYSTEMS SLIM+ FOR FLAT ROOFS

The Eurosccaffold SGS Slim+ roof-edge protection system allows you to easily transform your Edge system into a flat-roof system. The frames are interchangeable with SGS Edge frames for pitched roofs.

Safety Guard Systems provide optimum safety, are easy to use and greatly increase labour productivity on the roof. Thanks to Eurosccaffold's temporary roof-edge protection, optimum roof safety is created in no time.

- ✓ Intensive use
- ✓ Use on roofs
- ✓ Professional
- ✓ Quick assembly

**SAFETY GUARD**  
SYSTEMS<sup>®</sup> POWERED BY  
EUROSCAFFOLD

## SAFETY GUARD SYSTEMS PRIME FOR FLAT ROOFS

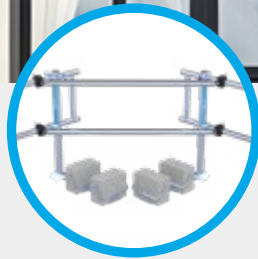

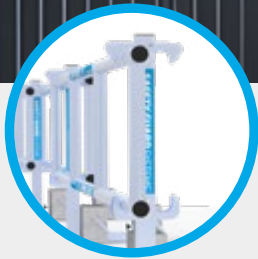

Eurosccaffold SGS Prime roof-edge protection for flat roofs ensures optimum safety, is easy to use and greatly increases labour productivity on the roof. Thanks to Eurosccaffold's temporary roof-edge protection, optimum roof safety is created in no time.

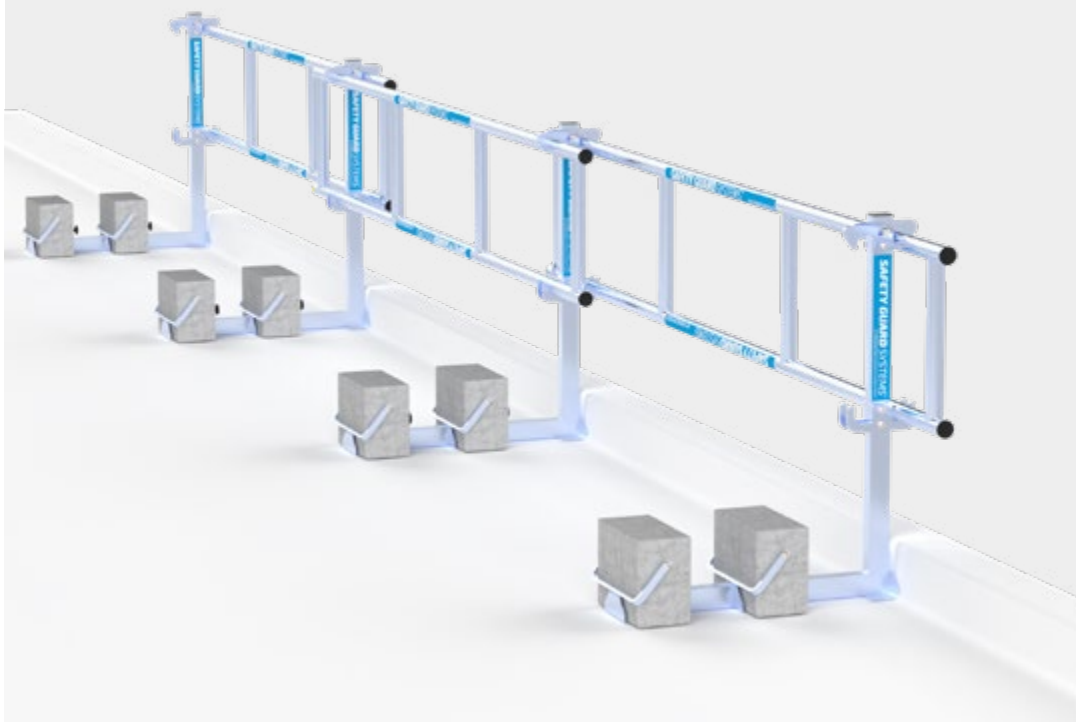

- ✓ **Safety:** reduces risk of accidents
- ✓ **Reusable:** for various projects
- ✓ **Easy and quick to install**
- ✓ **Flexible in various types of maintenance**
- ✓ **Savings compared to permanent roof protection**

# SAFETY GUARD SYSTEMS SLIM FOR FLAT ROOFS

Eurosccaffold SGS Slim roof-edge protection for flat roofs provides optimum safety, is easy to use and greatly increases labour productivity on the roof. Thanks to Eurosccaffold's temporary roof-edge protection, optimum roof safety is created in no time.

- ✓ Intensive use
- ✓ Use on roofs
- ✓ Professional
- ✓ Quick assembly

# INDOOR JOBS WITH INDOOR SCAFFOLDING

Eurosccaffold room scaffolds are mobile scaffolds and are used to work efficiently and safely at height. Room scaffolds feature a folding section made up of a single unit. This makes the room scaffold extra easy and quick to use. Due to its limited dimensions, room scaffolding is mainly used indoors, but outdoors is also possible.

Room scaffolding is ideally suited for small spaces, for example, indoors, in gardens and narrow alleys.

Eurosccaffold room scaffolds are certified and comply with European regulations.

- ✓ Ready to use quick and easy
- ✓ Compact folding for storage
- ✓ Made of high-quality aluminium
- ✓ Can be used both indoors and outdoors
- ✓ Expandable for a higher working height

## EVO ROOM SCAFFOLD

- ✓ Do-it-yourself use
- ✓ In and around the house
- ✓ Non-expandable
- ✓ One person to assemble

EVO ROOM SCAFFOLD		
WIDTH (CM)	LENGTH (CM)	WORKING HEIGHT (M)
75	190	3

## READY ROOM SCAFFOLD

- ✓ Professional
- ✓ indoors and outdoors
- ✓ Intensive use
- ✓ One person to assemble

READY ROOM SCAFFOLD		
WIDTH (CM)	LENGTH (CM)	WORKING HEIGHT (M)
75, 90, 135	190	3

# CT26 ROOM SCAFFOLD

✓ Professional

✓ Expandable

✓ Indoors and outdoors

✓ Intensive use

CT26 ROOM SCAFFOLD		
WIDTH (CM)	LENGTH (CM)	WORKING HEIGHT (M)
75, 90, 135	190	3, 4, 5, 6, 7

**TIP** Mini stabilisers for safe working with room scaffolding in line with the standard.

# PLASTERERS' PLATFORM

✓ Professional

✓ Expandable

✓ Large working area

✓ One person to assemble

PLASTERERS' PLATFORM		
WIDTH (CM)	LENGTH (CM)	WORKING HEIGHT (M)
190	300, 400, 455	3

# PROFESSIONAL LADDERS AND STAIRS

## PLATFORM STAIRS

- ✓ Professional
- ✓ Intensive use
- ✓ Indoors and outdoors
- ✓ Lightweight and strong

PLATFORM STAIRS	
NUMBER OF STEPS	WORKING HEIGHT (M)
2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12	maximum 4,8

## DOUBLE-SIDED LADDERS

- ✓ Professional
- ✓ Intensive use
- ✓ Indoors and outdoors
- ✓ Lightweight and strong

DOUBLE-SIDED LADDERS	
NUMBER OF STEPS	WORKING HEIGHT (M)
2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12	maximum 4,8

## WAREHOUSE STAIRS

- ✓ Professional
- ✓ Intensive use
- ✓ In het magazijn
- ✓ Manageable for one person

WAREHOUSE STAIRS	
NUMBER OF STEPS	WORKING HEIGHT (M)
4, 6, 8, 10, 12	maximum 5

# SINGLE LADDERS

- ✓ Professional
- ✓ Intensive use
- ✓ Indoors and outdoors
- ✓ Manageable for one person

SINGLE LADDERS	
NUMBER OF RUNGS	WORKING HEIGHT (M)
6, 7, 8, 9, 10, 12, 14, 16, 18, 20, 24, 28	maximum 8,25

# TWO-PIECE LADDERS

- ✓ Professional
- ✓ Intensive use
- ✓ Indoors and outdoors
- ✓ Manageable for one person

TWO-PIECE LADDERS	
NUMBER OF RUNGS STRAIGHT BASE MODEL	WORKING HEIGHT (M)
2x6, 2x7, 2x8, 2x9, 2x10, 2x12, 2x14	maximum 6,50
NUMBER OF RUNGS BENT BASE MODEL	
2x8, 2x9, 2x10, 2x11, 2x12, 2x14, 2x16, 2x18	maximum 8,50

# THREE-PIECE LADDERS

- ✓ Professional
- ✓ Intensive use
- ✓ Indoors and outdoors
- ✓ Manageable for one person

THREE-PIECE LADDERS	
NUMBER OF RUNGS STRAIGHT BASE MODEL	WORKING HEIGHT (M)
3x6, 3x7, 3x8, 3x9, 3x10, 3x12, 3x14	maximum 9,25
NUMBER OF RUNGS BENT BASE MODEL	
3x8, 3x9, 3x10, 3x12, 3x14	maximum 9,25

# FOLDING LADDERS

- ✓ Professional
- ✓ Intensive use
- ✓ Indoors and outdoors
- ✓ Manageable for one person

FOLDING LADDERS	
NUMBER OF RUNGS	WORKING HEIGHT (M)
4x3, 4x4, 4x5, 4x6	maximum 7,5

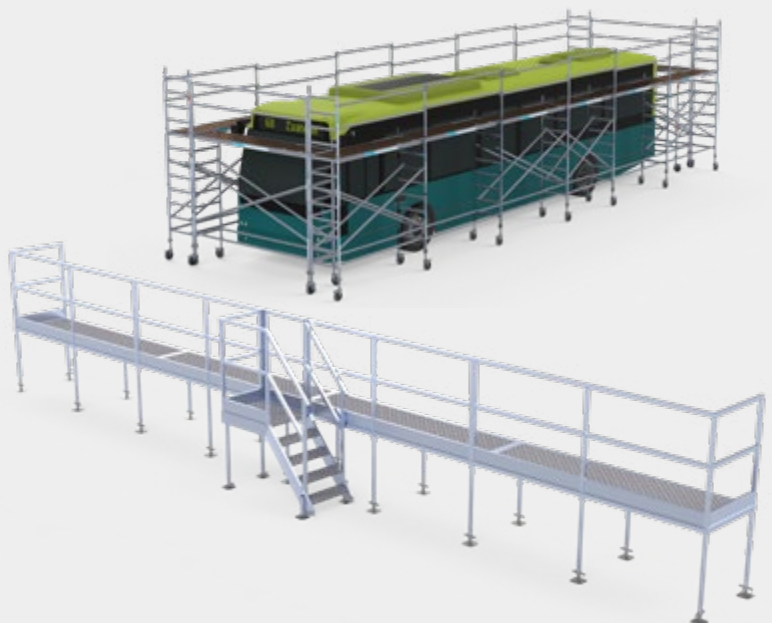

# INNOVATIVE ALUMINIUM SAFETY SOLUTIONS

Eurosccaffold develops innovative customised aluminium safety solutions. To make working at height safer. This is how we ensure a safe working situation or provide safe access to buildings, façades and machinery. These bespoke solutions are developed, produced and assembled by us.

- ✓ Create a safe working environment
- ✓ Design & Development
- ✓ Always a suitable solution

## WORKING PLATFORMS

# CAGE LADDERS

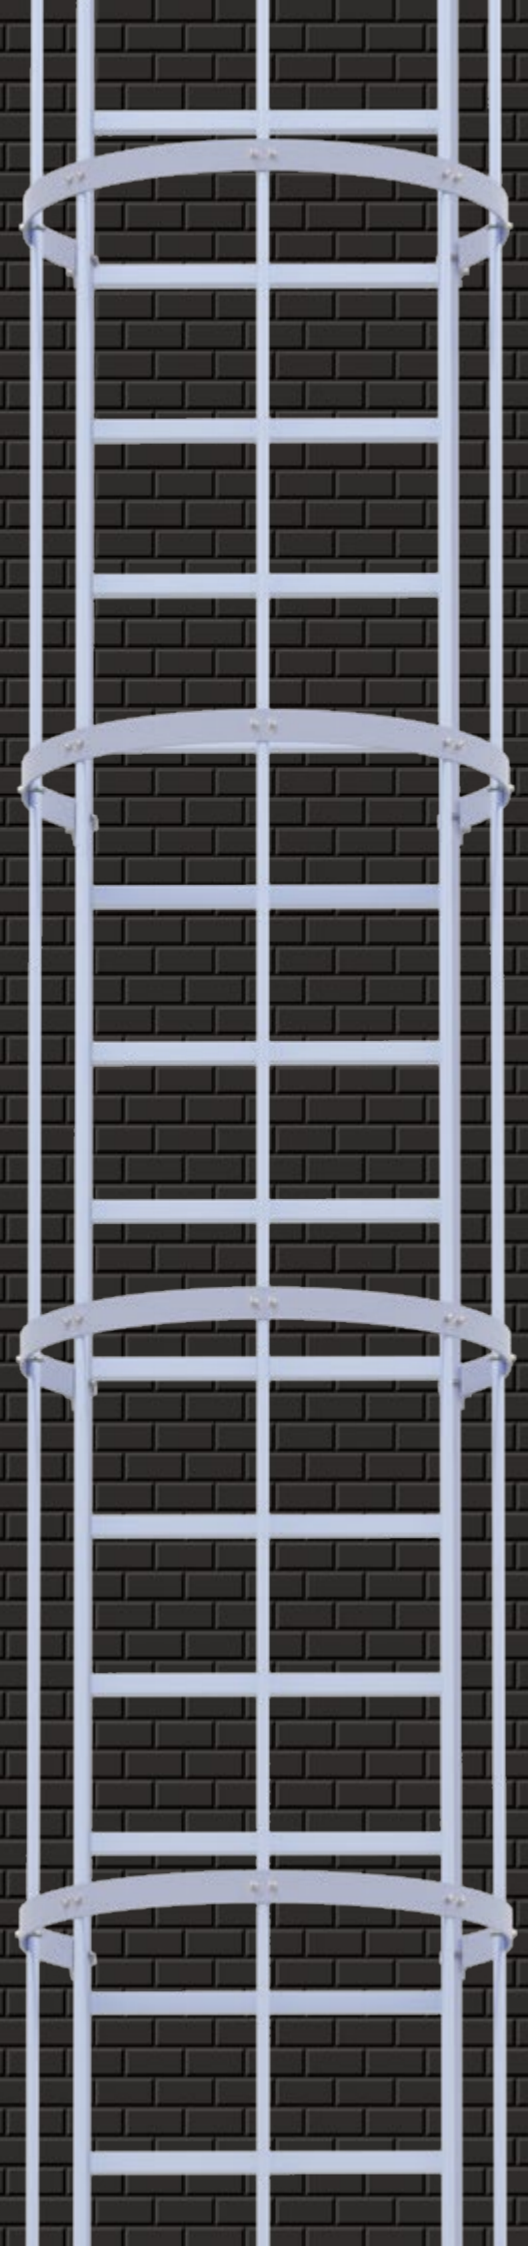

Cage ladders are permanent access ladders with a surrounding safety cage. When bridging over three metres, a safety cage is mandatory. Cage ladders are used as fall protection and escape ladders.

At your request Euroscaffold will make the following cage ladders to size for you:

- ✓ **Cage ladders for roof access**
- ✓ **Cage ladders for shafts, wells and silos**
- ✓ **Cage ladders (or escape ladders) as emergency exit/escape route**
- ✓ **Permanent suspended ladders and façade maintenance installations**
- ✓ **Maintenance bridges, window cleaning bridges and work platforms**

The cage ladders consist of aluminium profiles and are fitted with non-slip rungs. Every version is possible, based on your requirements and the situation at your business. The cage ladders can be mounted in a staggered pattern and interrupted with intermediate landings for safety.

The starting point for every cage ladder is ease of use and safety for you and your employees. The cage ladders are customisable with various options, such as choosing the colour in an impact-resistant powder coating.

# CERTIFICATIONS

Eurosccaffold has the required certificates to develop and produce climbing equipment. All products meet the standards required in the Netherlands and Europe.

## STANDARDS FOR MOBILE SCAFFOLDS AND ROOM SCAFFOLDS

### EUROPEAN STANDARD EN 1004-1:2020

EN 1004 Class III. The main standard for mobile scaffolds. This standard describes materials, dimensions, loads, safety and performance requirements.

### EUROPEAN STANDARD EN 1004-2

Mobile scaffolds must be provided with an understandable user manual. This includes: maximum assembly and permissible load, method of assembly and disassembly, handling of the scaffolding and inspection.

### A-BLAD MOBILE SCAFFOLDS

The Mobile Scaffolds 'A-blad' (occupational safety sheet) contains recommendations to make working with mobile scaffolds as safe as possible. This 'A-blad' contains recommendations on work preparation, erection, usage phase, disassembly, storage and maintenance of mobile scaffolds.

### TÜV NORD QUALITY CERTIFICATION

Eurosccaffold's mobile and indoor scaffolds are TÜV certified. Eurosccaffold's mobile and indoor scaffolds are TÜV certified. The TÜV seal of approval demonstrates that the products supplied meet the set standards.

## STANDARDS ROOF-EDGE PROTECTION

### EUROPEAN STANDARD EN 13374+A1 CLASS A

This standard specifies requirements for temporary roof-edge protection for use during construction or maintenance on buildings, façades and other structures. This standard applies to roof-edge protection systems for flat and pitched roofs and specifies the requirements for those classes.

## STANDARDS LADDERS AND STAIRS

### EUROPEAN STANDARD EN 131

EN 131 is the European standard for stairs, ladders and folding ladders.

### NEN 2484:1989

This standard provides terms and definitions and the requirements for the manufacture and testing and instructions for the use of portable climbing equipment.

### THE NETHERLANDS COMMODITIES ACT ON PORTABLE CLIMBING EQUIPMENT

This is a Dutch law, which sets requirements for ladders and stairs on sale in the Netherlands. The Commodities Act and its regulations apply to all portable climbing equipment for private and professional use.

# BECOME A DEALER?

For the best service, quality, customisation, speed and good margins, Eurosccaffold is the place to be! We offer an excellent personal service for our dealers, so you have a fixed contact person for all your questions.

## POPULAR WITH BUILDING PROFESSIONALS

Eurosccaffold is a renowned brand and known to construction professionals worldwide. Its products are sold in many European countries, but also far beyond.

## CERTIFIED PRODUCTS

At Eurosccaffold, you are assured of proven quality. The products comply with European standards for safe working at height. All parts are manufactured in our own factory according to the rules of TÜV NORD certification.

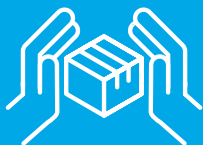

## ONE-STOP-SHOP

Eurosccaffold offers a wide range of climbing and safety equipment for working at height. Additionally, our research and development is always working on new developments. Aluminium customisation is possible by arrangement.

## FAST DELIVERY

Eurosccaffold guarantees super-fast delivery. It is also possible to deliver by appointment or at a location of your choice.

## SERVICE

Eurosccaffold's sales department is always ready to take your an order or to give you the advice you need. We also have multilingual accountmanagers. All factory-made products come with a 5-year warranty as standard.
